PROFESSIONAL EXPERIENCE

Software Developer — Frog Technologies LTD Aug 2022 – Apr 2025 (2 yrs 9 mos)

- Developed and maintained full-stack web applications using Laravel, PHP, HTML, CSS, and JavaScript.
- Designed, built, and consumed REST APIs to enhance system functionality and connect third-party services.
- Managed relational databases (MySQL/PostgreSQL) including schema design, query optimisation, and migrations.
- Implemented user authentication systems and role-based access control for client applications.
- Applied secure coding practices across authentication flows and data handling.
- Designed responsive frontend interfaces aligned with UI/UX best practices using Tailwind CSS and Figma.
- Optimised application performance and contributed across the full development lifecycle from requirements gathering through deployment.
- Collaborated with cross-functional teams to implement new features and resolve technical issues.
- Developed and maintained mobile application features using Flutter, integrating REST APIs and ensuring a responsive user experience.

- Used Git for version control, collaborative development, and code reviews within the development team.

Technical Support Specialist — Tcloud Business Africa Jun 2025 – Aug 2025 (3 mos)

- Delivered post-deployment technical support for business applications and websites.
- Diagnosed and resolved technical issues efficiently, minimising client downtime.
- Applied PHP knowledge to support and troubleshoot product functionality.
- Maintained documentation of technical cases and resolutions.

FREELANCE & NOTABLE PROJECTS

LichtPfad — Full-Stack Recruitment Platform | PHP, JavaScript, MySQL, API Integration

- Built a full-stack platform connecting African professionals with German job and study opportunities.
- Integrated third-party Job and Course Search APIs with structured error handling and fallback UI states.
- Implemented multilingual English/German toggling and separate flows for job seekers and employers.

Kitenge Closet — E-Commerce Website | HTML5, CSS3, JavaScript

- Built a fully responsive e-commerce website featuring product listings, category filtering, and an optimized user experience across desktop and mobile devices.
- Handled layout design, data rendering, and deployment via Netlify.

Kitenge Closet — Android E-Commerce App | Flutter, Dart, Firebase Authentication, REST APIs

- Built a cross-platform Android e-commerce app using Flutter and Dart.
- Integrated REST APIs to retrieve product data and synchronize user actions.
- Implemented Firebase Authentication for secure user login and session management.
- Developed responsive product browsing, shopping cart, and checkout experiences.
- Applied clean architecture and efficient state management to improve maintainability and performance.

Upwork Freelancer — 100% Job Success Score | Rising Talent Badge | \$300+ earned | 4 completed jobs
